YOUR NR. 1 IN CONTEMPORARY JAPANESE TABLEWARE

We design, craft and distribute top quality oriental tableware for households and businesses worldwide. Our established brand Tokyo Design Studio is inspired by Japanese culture and praised for its refined contemporary designs and high-quality standards.

With design teams located in both The Netherlands and Japan we aim to create a unique and constantly evolving signature. Respecting centuries of porcelain and pottery heritage, we constantly look for unexpected perspectives that help us create the tableware of today and tomorrow.

Our products are authentic by nature. Predominantly made in Japan by artisanal methods perfected over 400 years. Our pad-printed products are baked twice, then decorated one color at a time, glazed, and baked again. Throughout the process a meticulous quality control is applied, making sure each product is of the highest quality.

GREEN SOSHUN

Even after 25 years Green Soshun still feels like the newest tableware trend. This is a photographers' favourite. OHUKE DAHLIA

The traditionally shaped porcelain bowls and plates have some relief, which, together with a matte finish, gives them a rich and luxurious look and feel. They lend an elegant note to any dining room – on their own or layered with other pieces from the Burashi collections.
The Dahlia and Karakusa line is ideal for those who want to mix and match but also strive for visual harmony. While the Dahlia pattern is inspired by Dahlia flowers, the Karakusa bowls are derived from Japanese artistic interpretation of an octopus, resulting in special color effects in lovely bright indigo blue. Graceful and timeless, they will make a welcome addition to your tableware collection.

SEIGAIHA

In a rich indigo on crisp white, the Seigaiha collection features beautifully detailed waves in a striking pattern. They are the traditional lucky motif in Japanese symbolism, representative of the boundless ocean, the flow of energy and good fortune. Like the other 'fine patterns', Burashi and Fleur the Ligne, Seigaiha pieces are made from high quality Japanese porcelain with an elegant matte finish.

JAPONISM BLUE & BLACK

Serve with a story. These graceful creatures are an ode to Asian myths, suggesting wisdom and supernatural powers. Drawn on pure porcelain, this tableware is a must-have for dishing out a good traditional ramen or noodles. And after dinner, please don't leave these porcelain pearls behind closed doors. FLORA JAPONICA

The Flora Japonica collection is inspired by Dutch botanists bringing back new plant species from Japan, centuries ago. It is all about exploring and admiring Japanese flora. National treasures like the fine-leaved maple, the heart-shaped katsura, pretty white pine trees and one of the oldest trees on earth, the ginkgo biloba, have found a place in our collection. Amidst these wonderful trees you'll find another Japanese phenomenon: the dancing cranes. Do you share our love for Japanese nature?

With Tokyo Design Studio we celebrate cross-cultural collaborations of the past and add a new chapter by giving a unique European twist to traditional Japanese pattern and tableware design.

Our Flora Japonica collection consists of porcelain plates, bowls and cups in various sizes. Each product is dishwasher-proof and safe to use in a microwave.

NIPPON BLACK

Nippon Black combines the best of two worlds. The elegant shapes, decors and high quality porcelain are traditional Asian, while the clean black-and white is inspired by the minimalism of contemporary Scandinavian design. With a host of different decors to combine and play with, they add a subtle surprising touch to any interior style.

SKULL

The Skull collection is designed by Royal Stafford, an industry leader in the manufacturing of English cream coloured earthenware. Established in 1845, Royal Stafford is recognised around the world for its high quality, beautiful tableware. Every piece of pottery is produced with attention to detail and a lot of love and care in one of the oldest pottery factories in Stoke-on-Trent, England.

After the first biscuit bake the products are decorated with the underglaze printing process, then glazed and baked a second time. This ensures that all creamware is extremely durable, dishwasher-proof and safe to use in a microwave. Our SKULL collection consists of plates, bowls and cups in various sizes.

CAST IRON TEA KETTLE

Originally created in Ancient China, the cast iron teapot has become a widely-known traditional Japanese artefact as more people are now drinking loose teas. The designs of the teapots include different symbols which have a range of meanings, such as joy, strength, happiness and blessings. The traditional name for a teapot is tetsubin and the way tea is brewed is called kyūsu. Over time, the designs have evolved, with the style or design of the teapot reflecting the class or desired class of the owner, therefore becoming a status symbol in society.

CHOPSTICKS

Chopsticks were developed about 5,000 years ago in China. By 500 AD, chopsticks had spread to Japan, Vietnam and Korea. Once you've got your technique nailed down, though, you might want to consider making it a regular habit: some people claim that chopstick use can improve memory-which will come in handy for remembering all those rules of etiquette. We have developed a wide range of chopsticks also available in beautiful designed boxes which makes our chopsticks an excellent addition to your cutlery drawer or a nice give away.
